Market Commentary and Fund Performance

How did the Fund perform during the reporting period?

- For the 12 months ending March 31, 2026, the Fund outperformed its benchmark, the MSCI World ex USA IMI Index.

Top Contributors

- Security selection within materials and information technology was a large contributor to relative outperformance from a sector perspective.
- A relative overweight to materials, specifically metals and mining, was beneficial for performance.
- Security selection within Switzerland was strong, namely in healthcare.
- An off-benchmark exposure to Taiwan Semiconductor Manufacturing Company proved to be a large driver of outperformance.
- Similarly, a relative overweight to Canada based mining company Barrick Mining was beneficial.

Top Detractors

- A relative underweight paired with security selection in industrials hurt relative performance.
- An underweight to industrials in Canada, specifically a lack of exposure to Bombardier Inc., was a key detractor from relative performance.
- An underweight to Spain detracted as the country significantly outperformed the broader index, MSCI World ex USA IMI Index.

Comparison of the change in value of a \$10,000 investment for the periods indicated.
