

Mercer Belong[®] streamlines fragmented solutions, answers employee questions, speeds up key actions, and drives engagement with underutilized programs — all from a single, AI-powered experience layer.

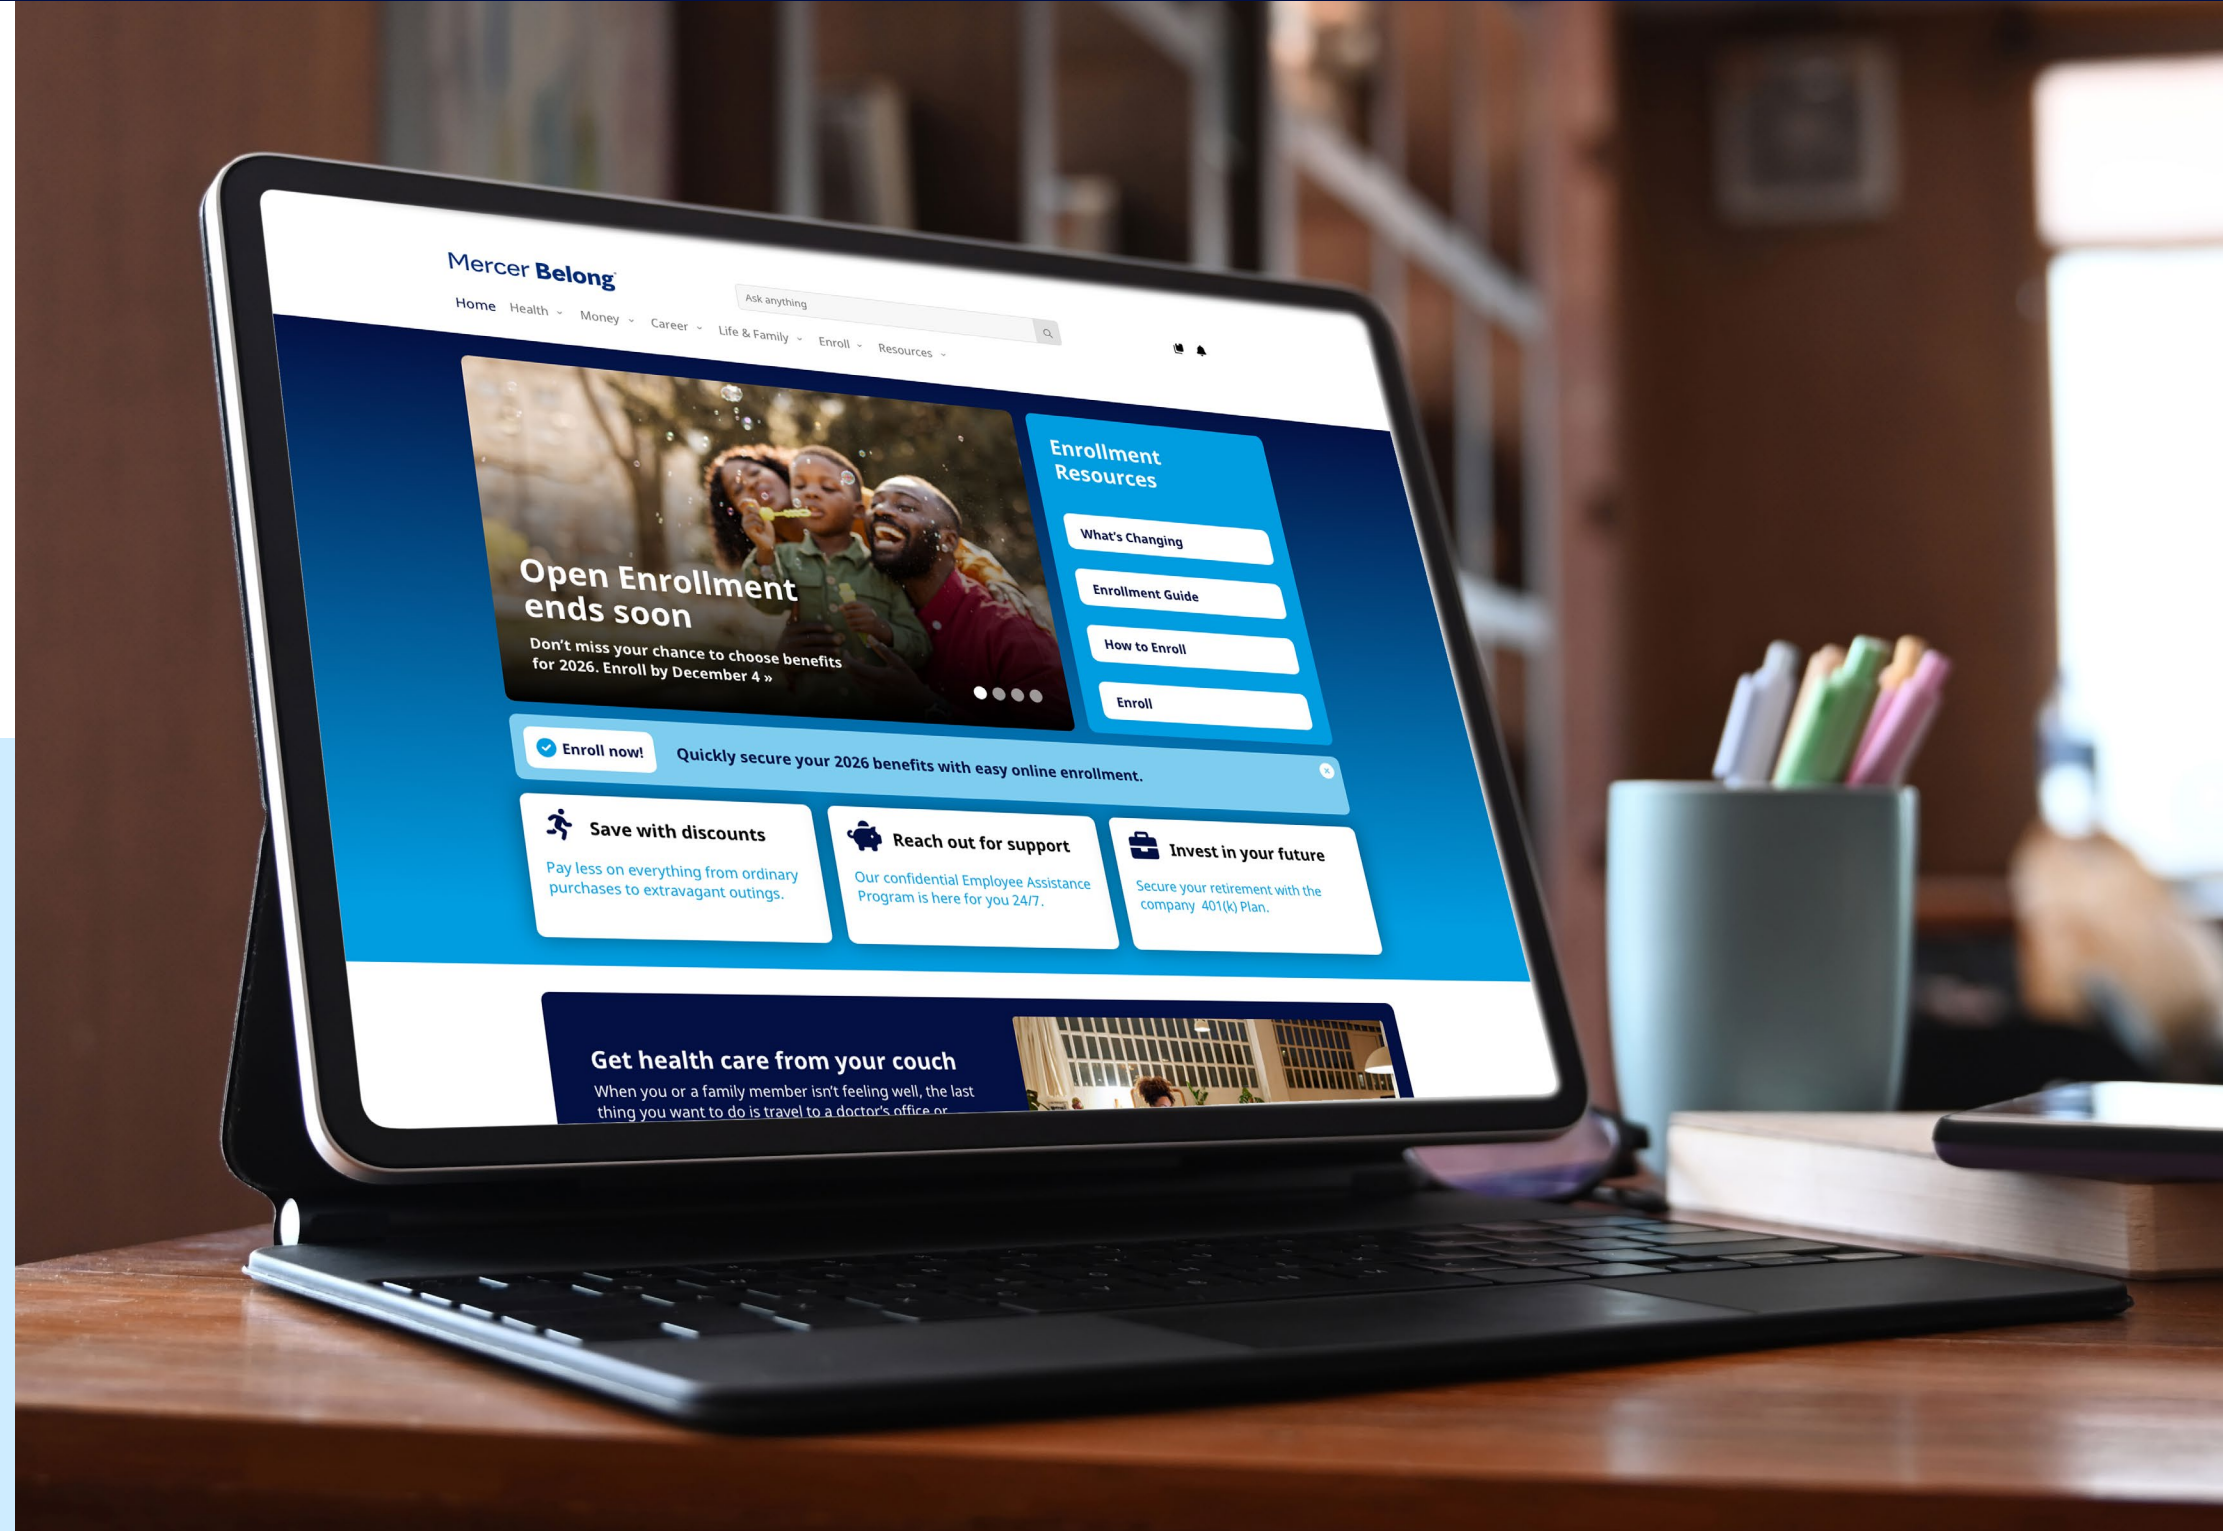

Powered by LumApps, a Forrester Wave™ and Gartner® Magic Quadrant™ Leader, Mercer combines industry-leading consulting with award-winning technology to give you something no other provider can — a single access point for C-suite trusted advisory & brokerage services, full-service consulting, and modern, IT-approved technology that can scale to support your entire enterprise.

Key features and functionality:

- AI powered cross-platform search
- AI Agent builder hub
- Transaction-capable integrations (ServiceNow, Workday, etc.)
- Personalized data-driven dashboards and journeys
- Omnichannel push notifications
- Front-line worker tools & feature sets
- GenAI-capable content management system
- Integrated site analytics with data lake compatibility
- Enterprise-intranet ready
- Integrated Rewards & Recognition
- Digital signage

Get the Most from Your Existing HR Technology

Mercer Belong[®] integrates seamlessly with your existing HRIS, administrative and ticketing platforms — giving you control over the communication and employee experience while maximizing the power of your HR systems.
